Catawba College Wireless Network
Configuration for Window 10

To connect to wireless, first locate and click on the wireless icon in the bottom right corner of your taskbar.

You will be presented with a list of available wireless networks. Click on catuskynet2.
Check the box to Connect Automatically to catuskynet2, then click the Connect button.

On the Wi-Fi settings page, you will be prompted for a user name and password – enter your Catawba username and password, then click OK.
At the “Continue connecting?” prompt, click the “Connect” button.
